### Intern, CodSoft Skill Build

April 2024 - May 2024

- Mastered Basic HTML, CSS, and JavaScript during internship.
- Built responsive web pages with dynamic features using HTML, CSS, and JavaScript.

## PROJECTS

---

### Rex Décor [Link](#)

- "Rex Decor" is an e-commerce website for all decoration items, developed with a React and Tailwind CSS front-end, and a Node.js, MongoDB, and Express.js back-end.
- It features Firebase for user authentication and integrates online payment options.
- For any issues, customers can contact us directly through the website.

### Chat-App [Link](#)

- A real-time messaging application enabling seamless communication with features like user authentication and responsive design.
- It utilizes the MERN stack (MongoDB, Express.js, React.js, Node.js) for a full-stack implementation, with real-time updates powered by Socket.IO and secure authentication via JWT. Tailwind CSS ensures a modern and intuitive UI.

### Netflix Clone [Link](#)

- Developed a fully responsive Netflix clone web application utilizing HTML, CSS, and Tailwind CSS.
- This project aims to replicate the user interface of Netflix, showcasing a comprehensive understanding of front-end web development, modern design principles, and responsive design techniques.
